

## **Job Summary**

SunPeak, a nationally-recognized commercial solar provider, is looking for a full-time Construction Support and Quality Lead to join its team. The ideal candidate will share our values of excellence and integrity and will be interested in contributing their skills in a key role.

As the Construction Support and Quality Lead, you will support solar construction crews by ensuring quality installation practices, assisting with project planning, helping resolve field issues, and improving communication between field crews and management. This role acts as a resource for foremen while helping maintain safety, productivity, and installation standards across projects.

This role works both in the office and in the field.

## **Primary Responsibilities:**

- Perform field quality inspections on racking, modules, and electrical installation
- Support foremen with layout questions, installation issues, and project coordination
- Assist with project planning and upcoming work preparation
- Verify work is completed per plans, specifications, and company standards
- Help track project progress and identify deficiencies early
- Conduct safety observations and support jobsite compliance
- Coordinate punch list completion and closeout items
- Document field conditions with photos and reports
- Communicate issues between field crews, project management, and engineering
- Assist with training and standardization of installation practices

## **Ideal Background:**

- Solar construction experience preferred
- Strong understanding of commercial rooftop or ground mount systems

- Ability to read plans and construction documents
- Good communication and organizational skills
- Problem-solving mindset and leadership ability
- OSHA 10/30 preferred
- Comfortable and able to work in the field and travel between jobsites

### **Compensation and Benefits**

This is a full-time position. SunPeak provides a competitive compensation package including health insurance, life/disability insurance, dental, vision, paid time off, and 401K. Additional individual and/or team bonuses may also be available based on individual merit and/or overall company success.

### **More about SunPeak**

SunPeak is a commercial solar PV provider headquartered in Madison, Wisconsin. We have the capability to design, engineer, install, commission, maintain, and finance solar systems for commercial customers that will provide decades of emission-free electricity from the sun.

Our company is built on a strong work ethic and has a team-oriented culture focused on safety and quality. In addition to providing a friendly and professional workplace, SunPeak fosters a culture of collaboration and process excellence.

Solar energy is one of the fastest-growing industries in the nation with limitless potential in the future. We believe that clean energy can and should be available to everyone. If you desire to join a team of dedicated individuals and have a positive impact on our environment, you may be an excellent fit for our team.
